

## LP-V Heliport Inset Taxiway Edge Light

### Description

This product is used in taxiway at night or in the daytime with poor visibility.

### Function

This product is used for shining blue light to accurately indicate the threshold of taxiway.

### Advantages

- PC material with good impact protection strength, thermal stability, high transmittance.
- International-advanced cold LED with low power consumption, high brightness and service life of light source reaching 100,000hours.
- LED based on obstruction light last 15 times longer than traditional light source, incandescent light.
- About 96% less power than 116W incandescent light.
- Major maintenance cost saving, Surge protection device inside light.
- Strong corrosion resistance, Shock and Vibrations protection and UV protection.

**Main Parameter**

Name	Data
Mode	LP-I
Light intensity	≥50cd
Light source	LED
Service life of LED	100, 000hours
Signal mode	Steady-burning way
Operating voltage	AC220V, 50/60 Hz(Option voltage, eg.AC120V,DC48V)
Emitting color	Blue
Power consumption	10W
Overall size(mm)	φ 222 by 128
Weight	5kg
Protection standard	IP67
